

# Self-Storage Hoists

## The Safetech Self-Storage Hoist designed for the self-storage industry.

Safetech freight hoists and lifts provide an efficient, cost effective and safe method of transporting goods between floors.

Suited to large storage franchise's and owner operators, the Self-Storage Hoist provides a user experience that is hassle free, reliable and high quality.

### Advantages of the Low Profile Hoist include:

- Simple to use intuitive lift style controls
- Smoother and quieter ride experience
- Low profile platform design means no need for concrete pit construction
- Built to all applicable standards AS1418.8 for Goods Hoists, AS1735.12 for Goods Lifts.
- Locally designed and built to suit the Australian Self Storage Industry.
- Specification through to commissioning and after sales support is fully supported and delivered efficiently.

Our team are available with expert advice and assistance to get your facility to the next level. Contact us on 1800 674 566 or email [sales@safetech.com.au](mailto:sales@safetech.com.au)

*Designed for your lift requirements*

*User-friendly lift controls*

*Made in Australia*

# Features

## Lifts to service 2, 3 or 4 levels

Engineered to specific requirements, our ability to custom design and build provides flexibility to any project.

## Unique Low Profile pit-less design

45 mm low profile platform construction means no need for expensive concrete pits.

## Scissor or rail hoist design

We can recommend the best design to suit your facility.

## Soft start and stop

Standard VF drive and heavy duty nylon guide rollers provide smooth, fast and quiet hoist operation.

## Lift Style Control Panel

A small but important detail. Our control panels are intuitive, safe and easy to operate.

## Booth finish options

Choose from a range of finishes that are durable, beautiful and unique to your facility.

## Booth branding

Brand your booth to suit your business.

## Australian made

Designed and manufactured in Australia, our hoists are produced with locally sourced components to the highest standards.

## Trusted manufacturers for more than 30 years

Our experience means you can be confident in a successful outcome.

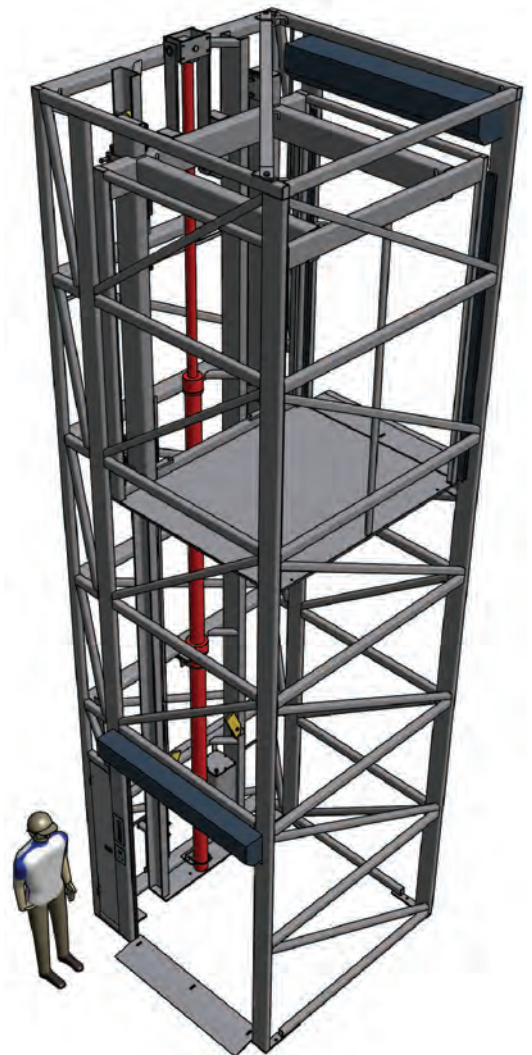

## Australia-wide service and support

Our experienced team work alongside you to create a genuine partnership that achieves the best outcomes. Our national footprint means we can provide local support and service wherever you are.

## FURTHER INFORMATION

As a trusted lift and hoist specialist with major retail and self-storage companies, we are dedicated to continuous product innovation and customer service excellence.
