

High Impact LED™ Dock Light

Rugged, Compact, Bright

The durable & flexible trailer lighting solution.

High Impact LED™ Dock Light

The **High Impact LED™ Dock Light** is designed for your most demanding applications at the loading dock.

The rugged, cast aluminium housing with poly-carbonate lens is engineered to withstand impact at the loading dock without damage to the light.

Bright, energy efficient 18 watt LED with 60,000 hour lamp life saves on utility, maintenance and replacement costs. The High Impact LED Dock Light can be easily retrofitted to existing dock arms or can be mounted remotely.

Features:

- ❖ Rugged, compact design for your toughest applications
- ❖ Significant energy efficient 18 watt LED
- ❖ 60,000 hour lamp life
- ❖ Light head rated for "Wet Locations" IP66, NEMA 4
- ❖ UL, cUL, CE certified and RoHs compliant
- ❖ Convenient recessed ON/OFF switch
- ❖ Meets requirements for food and pharmaceutical facilities
- ❖ 100-240VAC, 50/60HZ
- ❖ Standard 430mm cord with IEC60320-C14 Plug
- ❖ Optional 15cm adapter cord with NEMA 5-15 Plug available
