## Australia's premier dock products and lifting solutions company, renowned for our innovation and unparalleled expertise.

We are Australia's leading designer and manufacturer of dock products, freight hoists, scissor lifts, pallet loading and handling equipment, stretch wrappers, cranes, hoists and vehicle lifts. Our Australian based engineering and manufacturing capacity, extensive custom-design expertise and a national sales footprint lifts us clear of the competition.

In factories, warehouses, stores and homes across Australia, businesses and individuals continue to benefit from the safety, productivity and peace of mind we deliver.

Safetech hoists and custom lifts are installed in some of the most iconic locations in Australia including the MCG, Sydney's Star City, Parliament House in Canberra, and Melbourne's Shrine of Remembrance. Chances are many products you enjoy at home or work have been lifted and moved by our equipment.

Since the launch of our first-ever product PALIFT in 1984, we've grown to over 150 employees and sold more than 100,000 products and custom handling solutions world-wide. We are proud of our achievements, continually striving for excellence, and excited about the future.

### Our Vision

To play a vital role in enhancing the efficient and safe operations of every Australian company. We will provide our employees with meaningful, satisfying work and a career path that tests their skills and builds the strength and wealth of our community.

### Service & Support

Safetech Customer Care delivers a network of trained service technicians backed by the engineering team that designed and manufactured your equipment.

We also offer scheduled service plans for preventative maintenance.

**Safetech Customer Care provides all of this and more!**

# Dock Levellers

| Product  |   | Website   |
|--|---|---|
|    | <p><b>Hydraulic Dock Leveller</b></p> <p>With a well-earned reputation as the safest, most robust dock available the Tieman Dock Leveller is your efficient link between loading dock and delivery vehicle. Safety for your staff and delivery drivers. Efficient product delivery for your store.</p>  |    |
|   | <p><b>Mini Dock Leveller</b></p> <p>When the difference in range of vehicle bed heights to the dock height is minimal the face mounted Edge of Dock Leveller is a cost effective alternative. To suit today's markets this dock leveller offers durability and long term performance.</p>               |   |
|  | <p><b>Vertical Dock Leveller</b></p> <p>Safely installed either on a shelf or in a pit. Both installations provide the same energy efficiencies and ease of maintenance. So with either choice, the energy saving alone means a positive return on your investment in a short time for a long time.</p> |  |
|  | <p><b>Dock Bridge - Load Hog</b></p> <p>The LoadHog is a modular dock bridge designed to span the gap between the warehouse and the trailer. It possesses the versatility of a dock leveler without the need or expense of a concrete pit.</p>  |  |
|  | <p><b>Container Dock Levellers</b></p> <p>Container dock levellers have been designed to cater for the overhang problem of shippings containers not being mounted on the very back of trailer beds.</p>   |  |

# Dock Hoists

| Product  |  | Website   |
|--|--|---|
|   | <p><b>Dock Scissor Hoists</b></p> <p>Dock hoists are a critical link between delivery vehicles and your loading, and have a substantial impact on productivity and safety. Safetech build a wide range of dock hoists of varying capacities and sizes that are available in non-attended and attended designs.</p>     |    |
|  | <p><b>Lo Lift low profile Scissor Lifts</b></p> <p>When the difference in range of vehicle bed heights to the dock height is minimal the face mounted Edge of Dock Leveller is a cost effective alternative. To suit today's markets this dock leveller offers durability and long term performance.</p>               |  |
|  | <p><b>Lo Hoist Pitless Hoist</b></p> <p>Lo Hoist is unchallenged as the best solution for loading dock lifting. Its patented low profile design allows pitless ground loading in a range of sizes and weight configurations, which can be installed as part of a facility fitout.</p>                                  |  |
|  | <p><b>Heavy Commercial Vehicle Lifts</b></p> <p>Lifting trucks is not child's play. 30 tonne vehicles leave no margin for error and reliability and performance must be designed in from the beginning. Safetech know because we have built more heavy capacity vehicle lifts than any other company in Australia.</p> |  |

# Dock Shelters

| Product  |  | Website   |
|--|--|---|
|   | <p><b>Inflatable Eco-Shelter</b></p> <p>The Safetech Eco-Shelter provides a tight and secure seal around the edge of your refrigerated truck and cool environment reducing energy loss.</p>  |    |
|  | <p><b>Snap Back &amp; Ultra Dock Shelters</b></p> <p>Safetech Dock Shelters and Seals provide a most effective weather-protected passage-way between the building and the vehicle, keeping costs down.</p>   |  |
|  | <p><b>Blackout Dock Shelter</b></p> <p>Maintaining consistent temperature control, avoiding energy loss, effectively sealing varying trailer configurations, and meeting regulatory requirements are real issues.</p> <p>Additionally, air ride suspension and intermodal trailers create more abrasive movement on dock shelters.</p> |  |
|  | <p><b>Dock Compression Seal</b></p> <p>Compression Seals are the most cost-effective and energy-saving solution for keeping the elements out. While accommodating a wide range of vehicles.</p>  |  |

# Vehicle Restraints

| Product  |  | Website   |
|--|--|---|
|    | <b>In-Ground Wheel Chock</b> <p>The In-ground chock is a permanently installed, automatic system that effectively restrains trucks with a hydraulically operated, moving wheel chock.</p>        |    |
|   | <b>Surface Mounted Wheel Chocks</b> <p>The SLSC Safety-Chock secures trucks with an effective yet simple, automatic wheel chock, providing security for your trailer and forklift operators.</p> |   |
|  | <b>PitBull® Vehicle Restraint</b> <p>The PitBull bites on tight, engaging and securing a trailer's rear impact guard. Providing forklifts with a solid and secure platform for moving goods.</p> |  |
|  | <b>VersaChock™</b> <p>The Wireless Trailer Restraint System communicating the operation status with drivers and dock workers. Contact Safetech to find out more.</p>                             |  |
|  | <b>Ezy Chock</b> <p>The Safetech EZY Chock is easy to use and see. Avoid Potential Liability from Truck Drivers Pulling Away Before Loading/Unloading is Finished.</p>                           |  |

# Dock Accessories

| Product  |  | Website   |
|--|--|---|
|    | <b>Dock Bumpers</b><br>Extensive testing results show the DuraDock™ bumper giving many times the life span of the traditional rubber dock bumper.  |    |
|   | <b>Wheel Guides</b><br>The heavy-duty safety yellow wheel guides directs your trucks into the correct position at your loading dock.   |   |
|  | <b>Trailer Guidance Aids</b><br>Safetech provide a range of safety devices for both external and internal scenarios. Our safety strips and Impact Track LED systems provide greater visibility in your dock environment. |  |
|  | <b>ES Turbo Fan</b><br>The Turbo-ES™ Energy Saving Dock Fan from Safetech creates a focused column of air that forces hot, air from the trailer replacing it with fresh air.   |  |
|  | <b>Dock Lights</b><br>The complete dock light range to illuminate trailers. Our dock light range includes models for a range of use cases and environments.  |  |
|  | <b>Boom Gates &amp; Barriers</b><br>Safetech's range of boom gates are the perfect option to protect pedestrians and forklifts from fall damage and injury.  |  |

| Product  |   | Website   |
|--|---|---|
|    | <b>Pallet Dispenser</b><br><p>Pallet Dispensers provide safe and efficient pallet handling for warehouses, distribution centres, factories or any company with a high pallet turnover. They create pallet storage and assist to effectively separate pedestrian traffic from forklifts.</p> |    |
|    | <b>Door Solutions</b><br><p>Safetech makes industrial doors for use in our own lifts and hoists. That experience has taught us the importance of a reliable and durable door system.</p>  |    |
|   | <b>Dock Control Options</b><br><p>Our control panels are clear bright and intuitive. Our modern Digital MCUs give users a step by step sequence to follow reducing the amount of training.</p>  |   |
|  | <b>Pallet Inverters</b><br><p>Pallet Inverters eliminate manual stacking of pallets, customers benefit by reducing double handling and diminished injury risk to workers.</p>   |  |
|  | <b>Gorbel Workstation Cranes &amp; Jibs</b><br><p>Discover the world's best workstation bridge crane, monorail &amp; jib crane plus ergonomic lifting equipment, chain hoists, product manipulators &amp; end effectors</p>   |  |
|  | <b>Freight Hoists</b><br><p>Safetech's premium hoists and lifts provide an efficient, cost effective &amp; safe method of moving goods, freight and people between floors.</p>  |  |
