

LoLift

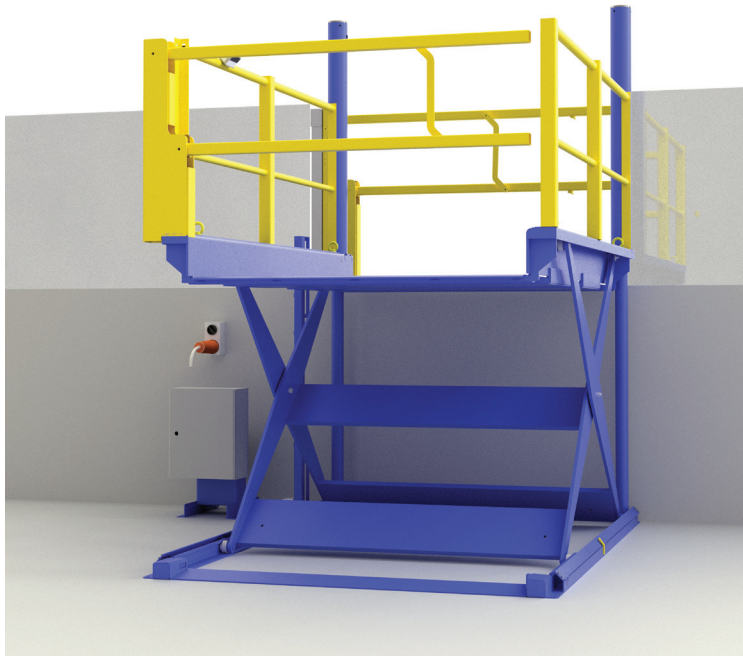

Drop-in and go
The Pitless Hoist Solution

The Pitless Hoist

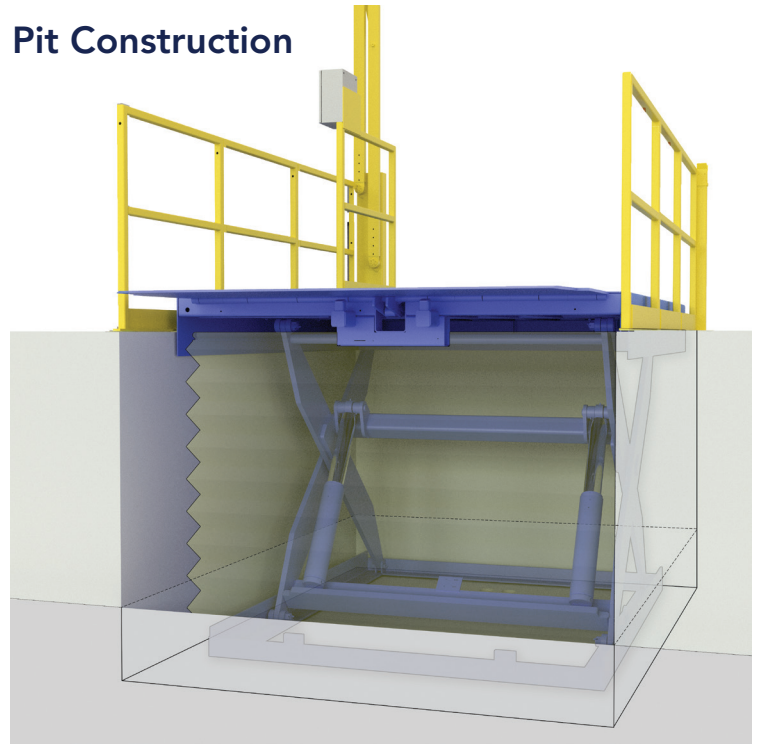

Pitless Design

- + No civil works, drop-in installation.
- + Cost effective with standard parts and simple servicing.
- Limited travel, capacity and platform options.

Pit Construction

- + Larger capacities, higher vertical travel.
- + Greater range of platform sizes and accessories.
- Expensive civil works - digging, drainage, cable routing etc.

Features

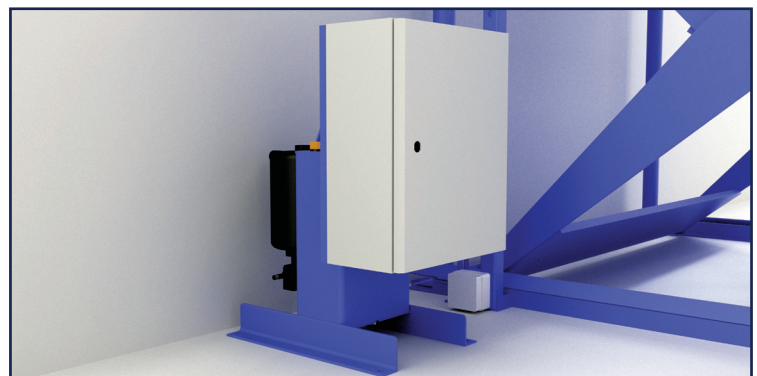

Overview

- LoLift is an ultra low profile scissor lift with a compressed height of just 40mm.
- Capacity of up to 1500kg and maximum height of 1300mm.
- Great for pallet trucks, trolleys and bins.
- No need to cut a pit unlike a traditional scissor.

Boom Gates & Handrails

- Safetech designed manual boom gates at both landings.
- Enclosed handrails prevent shear hazards and potential pinch points in tight environments.

Remote Power and Control System

- Easy maintenance and versatile positioning. This aids in providing the 40mm platform height.
- Weather-proof enclosure also available.

Reliable Protection, Improved Safety

- Safety bars & photo eye protection ensure safe operation.
- Encapsulated rollers to prevent tipping.
- Also includes maintenance props.

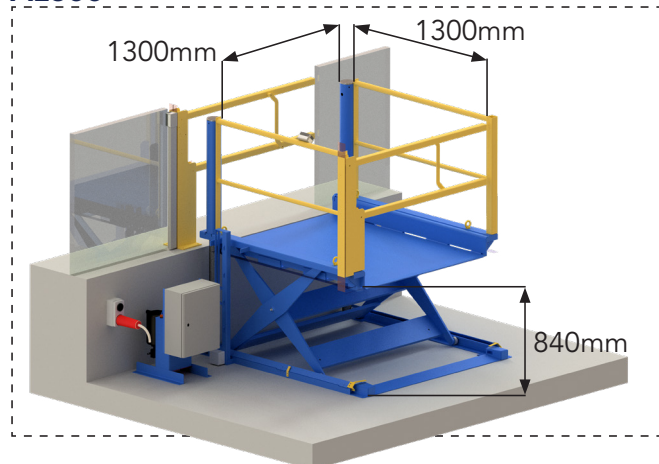

Finishes

- Non-slip platform treatments available.
- Professional colour scheme.
- Industrial enamel or 2-pack industrial paint.
- Optional powder coat handrails and gates.
